Re: Remington, Vernick & Walberg Engineers
Letter of Recommendation
U.S.D.A. Rural Development Program

Dear Mr. Savastano:

As Executive Director, on behalf of the Lower Township Municipal Utilities Authority ("LTMUA") I am pleased to present this Letter of Recommendation on behalf of Remington, Vernick & Walberg Engineers for your USDA Rural Development Central Avenue Sanitary Sewer Replacement project.

Remington, Vernick & Walberg Engineers is in the process of completing a \$2,500,000 grant/loan USDA Millman water tank project and a \$775,000 water main installation project for the LTMUA. They are currently leading the way for LTMUA in securing an additional USDA grant/loan for the Townbank project in the amount of approximately \$12,000,000. This USDA project includes several phases of water main, water services and fire hydrants to existing homes that will have a safe potable water system for the first time.

The LTMUA would not be able to supply our residents with a safe potable water supply without the USDA grants/loans. Remington, Vernick & Walberg Engineers were instrumental in the LTMUA securing these funds and making these projects possible. Their efforts to meet all of USDA requirements in a timely fashion certainly played a big role in LTMUA success.

Remington, Vernick & Walberg Engineers works hard for their clients' best interests. I would recommend Remington, Vernick & Walberg Engineers for the City of Sea Isle USDA projects.

Respectfully,

A handwritten signature in black ink that reads "C. Mike DeMarcantonio". The signature is written in a cursive style with a long horizontal flourish extending to the right.

C. Mike DeMarcantonio
Executive Director
