Re: Remington, Vernick & Walberg - Letter of Recommendation
USDA Rural Development

Dear George:

Please accept this correspondence as a letter of recommendation to utilize Remington, Vernick & Walberg for the USDA Rural Development Central Avenue Sanitary Sewer Replacement.

Remington, Vernick & Walberg originally introduced the City of North Wildwood in 2004 obtaining a \$1,300,000.00 grant for our Phase 1 sanitary sewer replacement program. Due to our successful experience with the USDA program, Remington, Vernick & Walberg subsequently obtained \$3,000,000.00 for our Phase 2 and 3 sewer replacement programs and therefore our City has secured \$4,300,000.00 in total grant funding along with \$10,700,000.00 in low interest loans. Additionally, both the City's Phase 1 and Phase 2 projects were successfully completed on time and under budget allowing our City to "stretch our dollar" by completing additional streets beyond the original program.

In summary, we have experienced exceptional results and highly recommend that the City of Sea Isle City consider using Remington, Vernick & Walberg for the Central Avenue Sewer Replacement project.

Very truly yours,

Ray Townsend, Administrator, City of North Wildwood
